

H1ETMY Model Fit TF Results: TOP L to TOP L

H1ETMY Model Fit TF Results: TOP T to TOP T

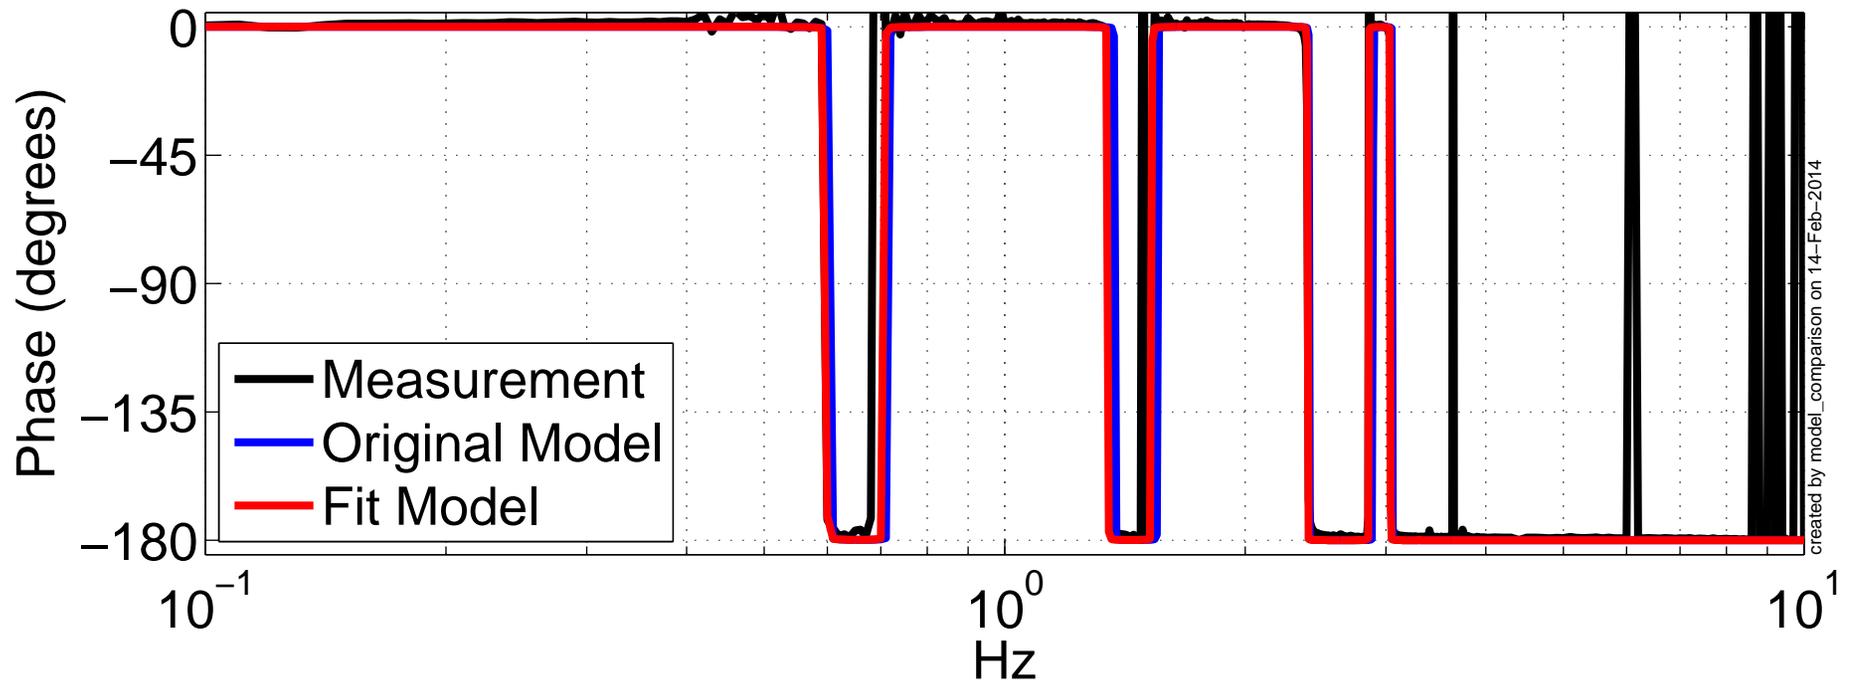

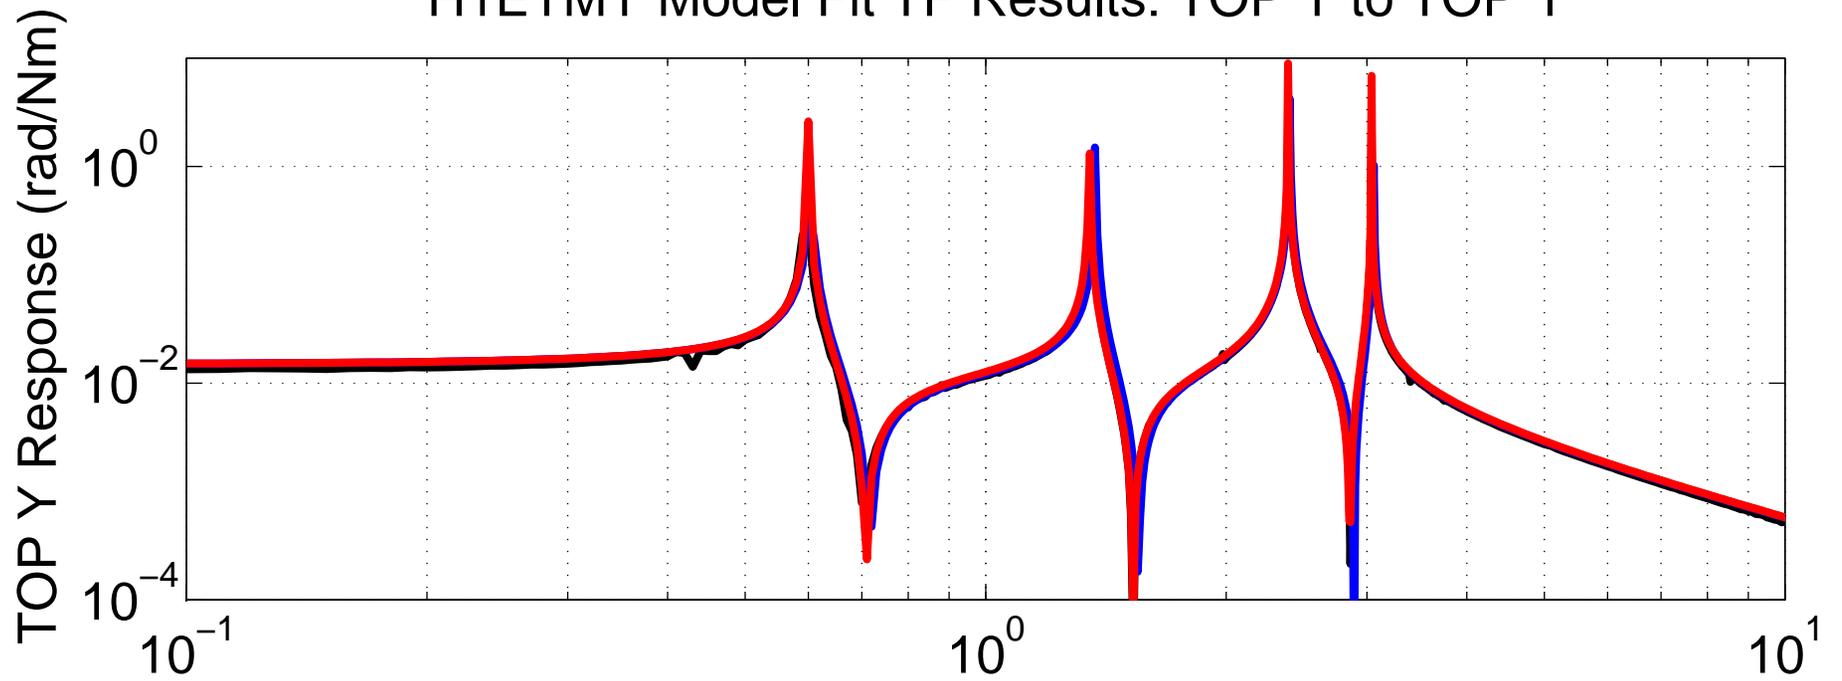

H1ETMY Model Fit TF Results: TOP V to TOP V

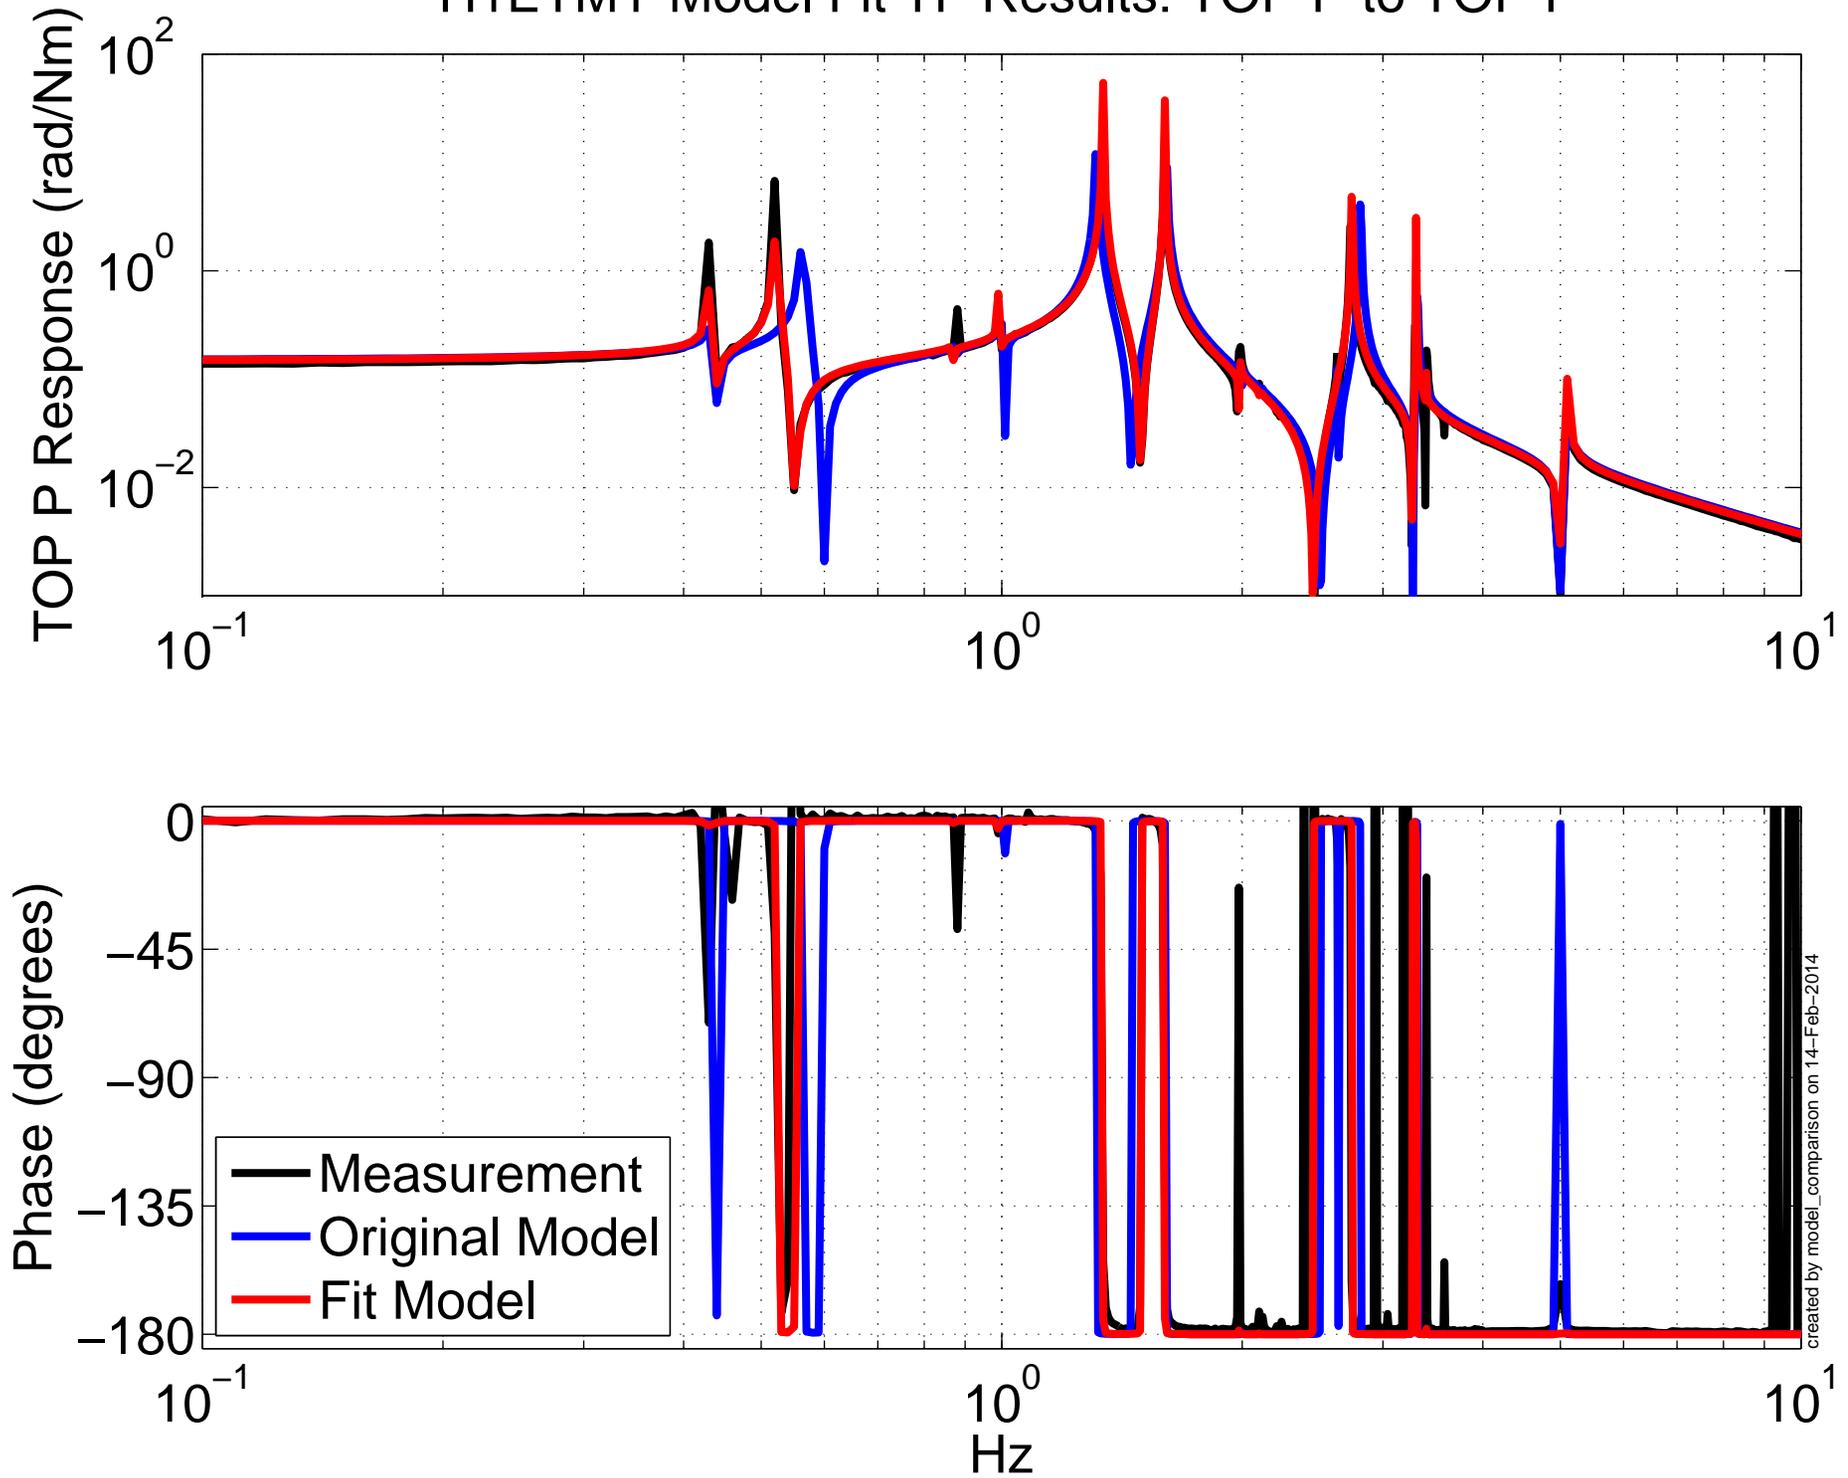

created by model_comparison on 14-Feb-2014

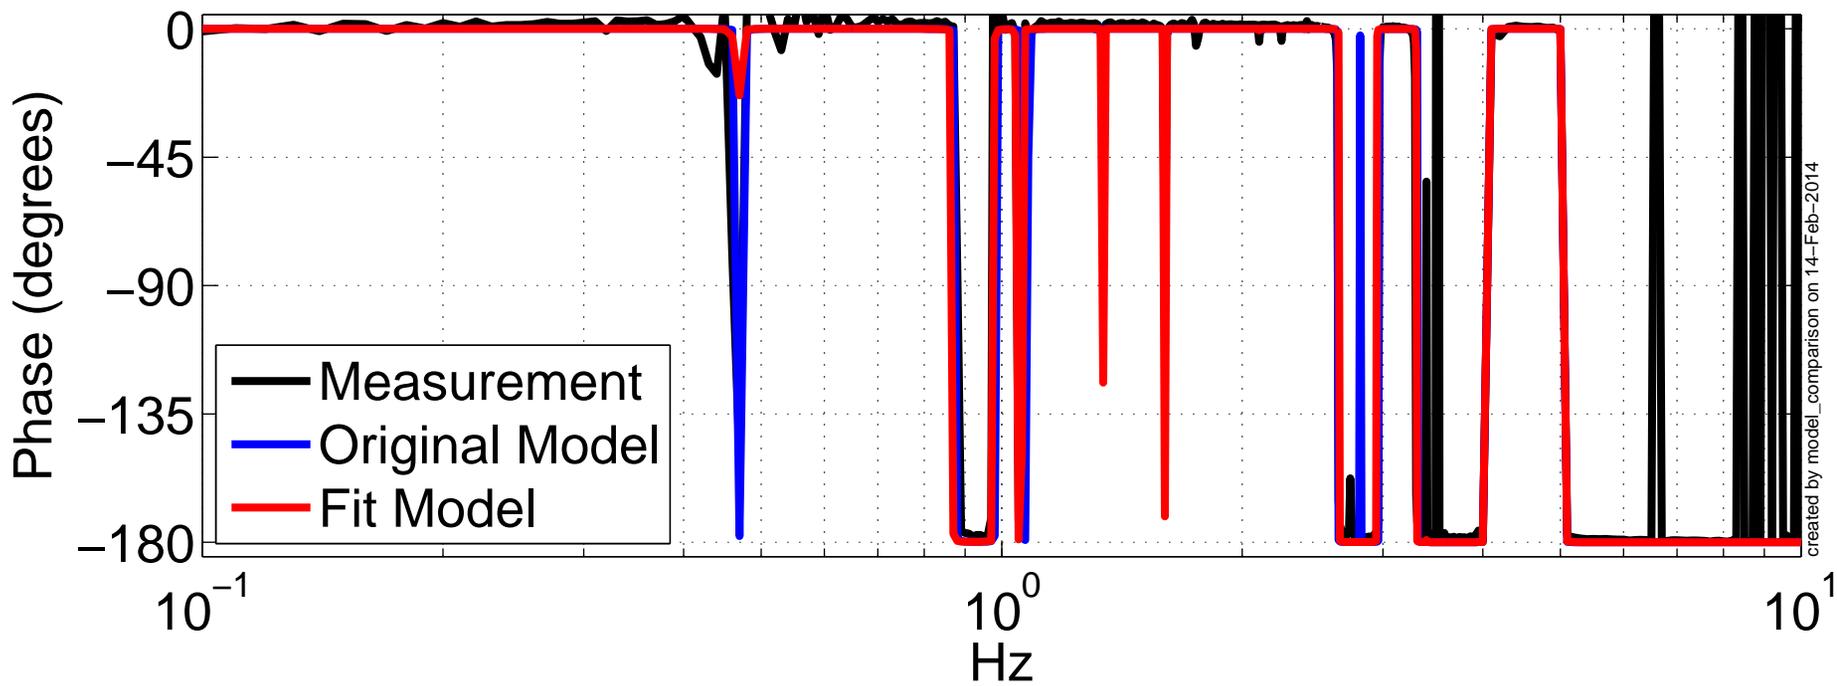

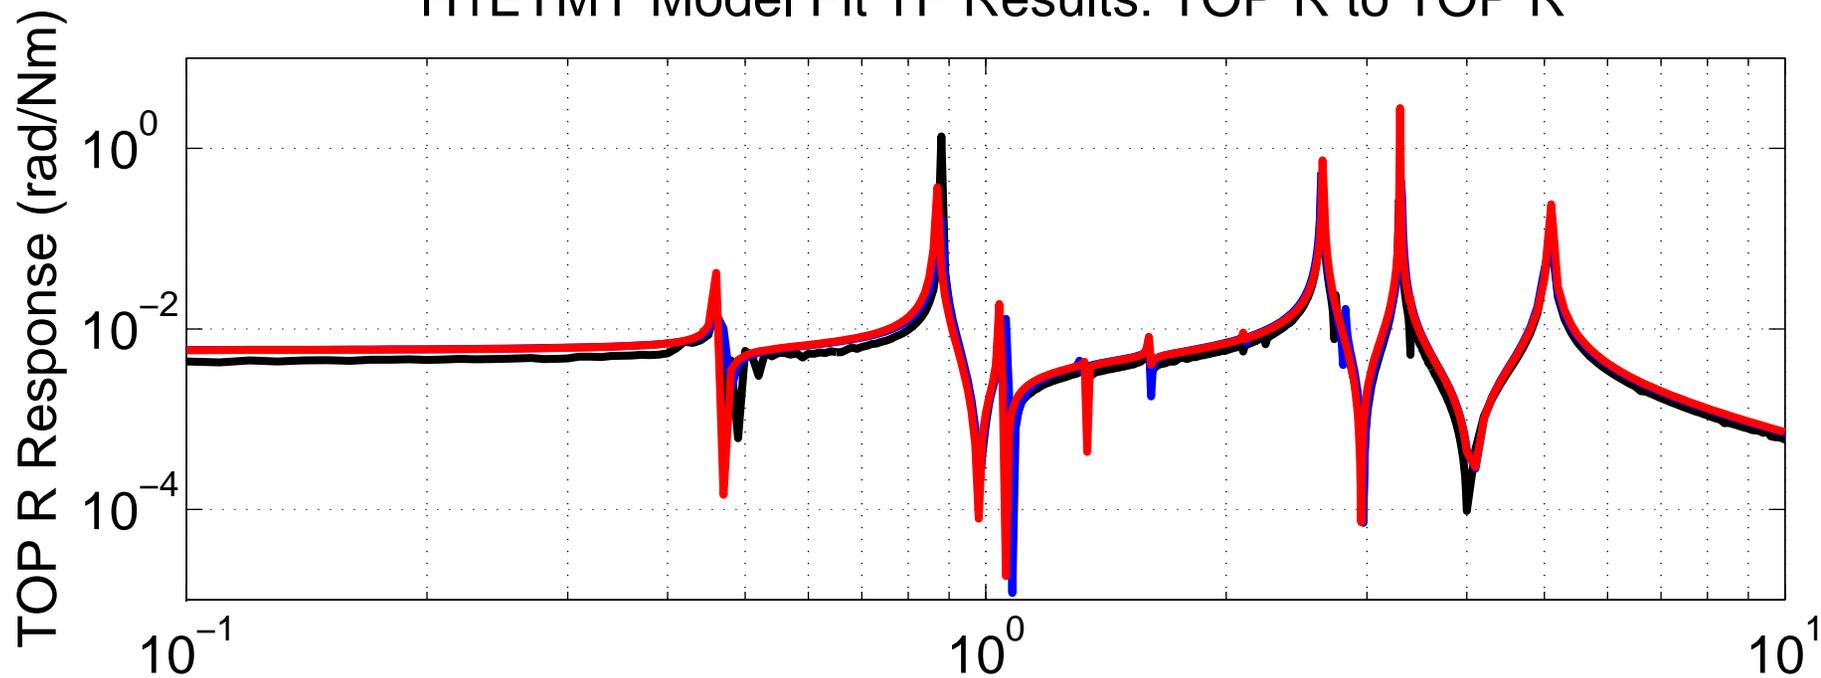

H1ETMY Model Fit TF Results: TOP Y to TOP Y

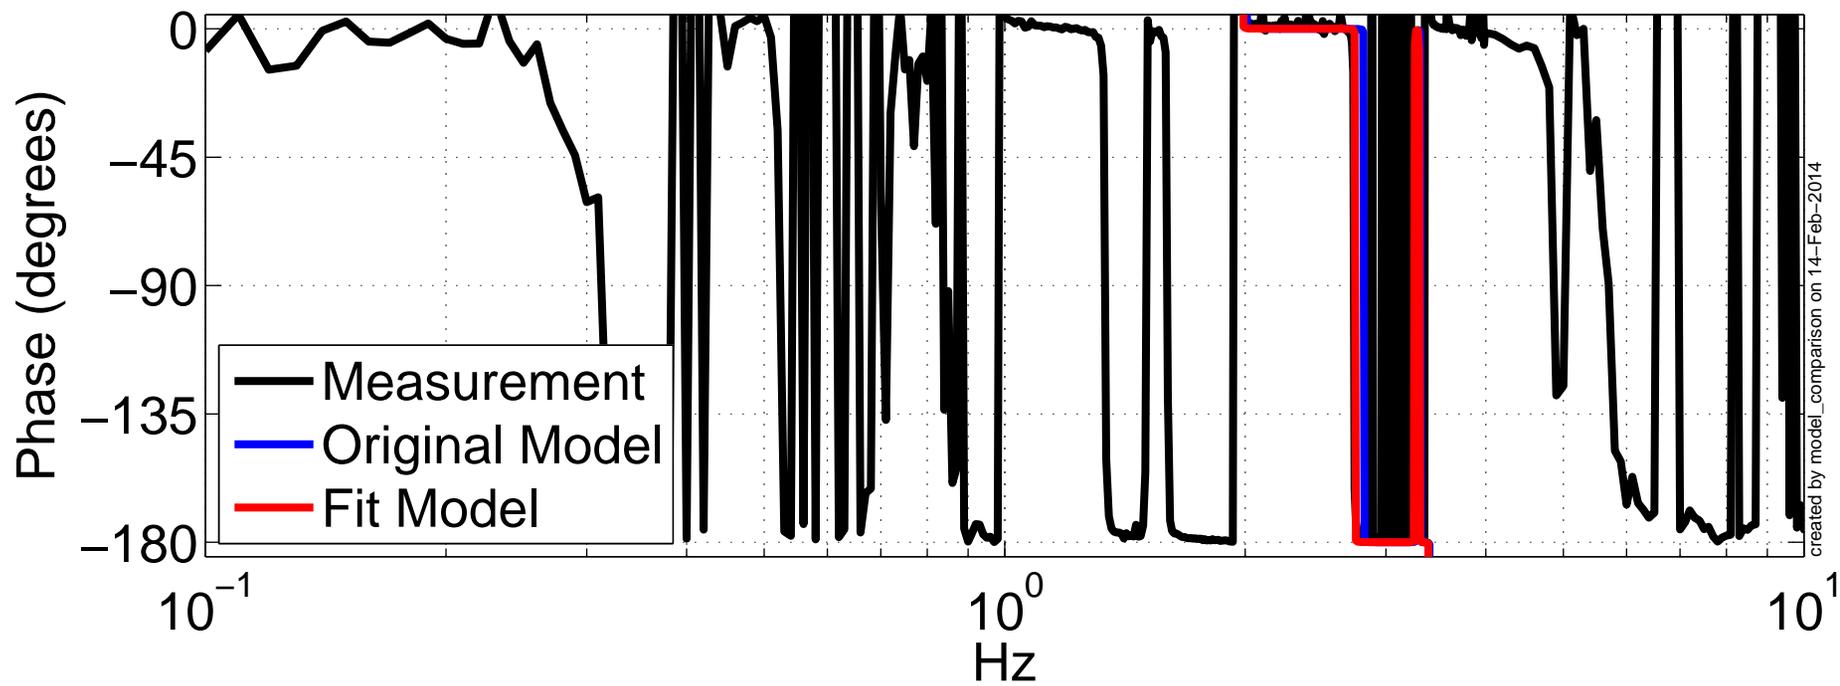

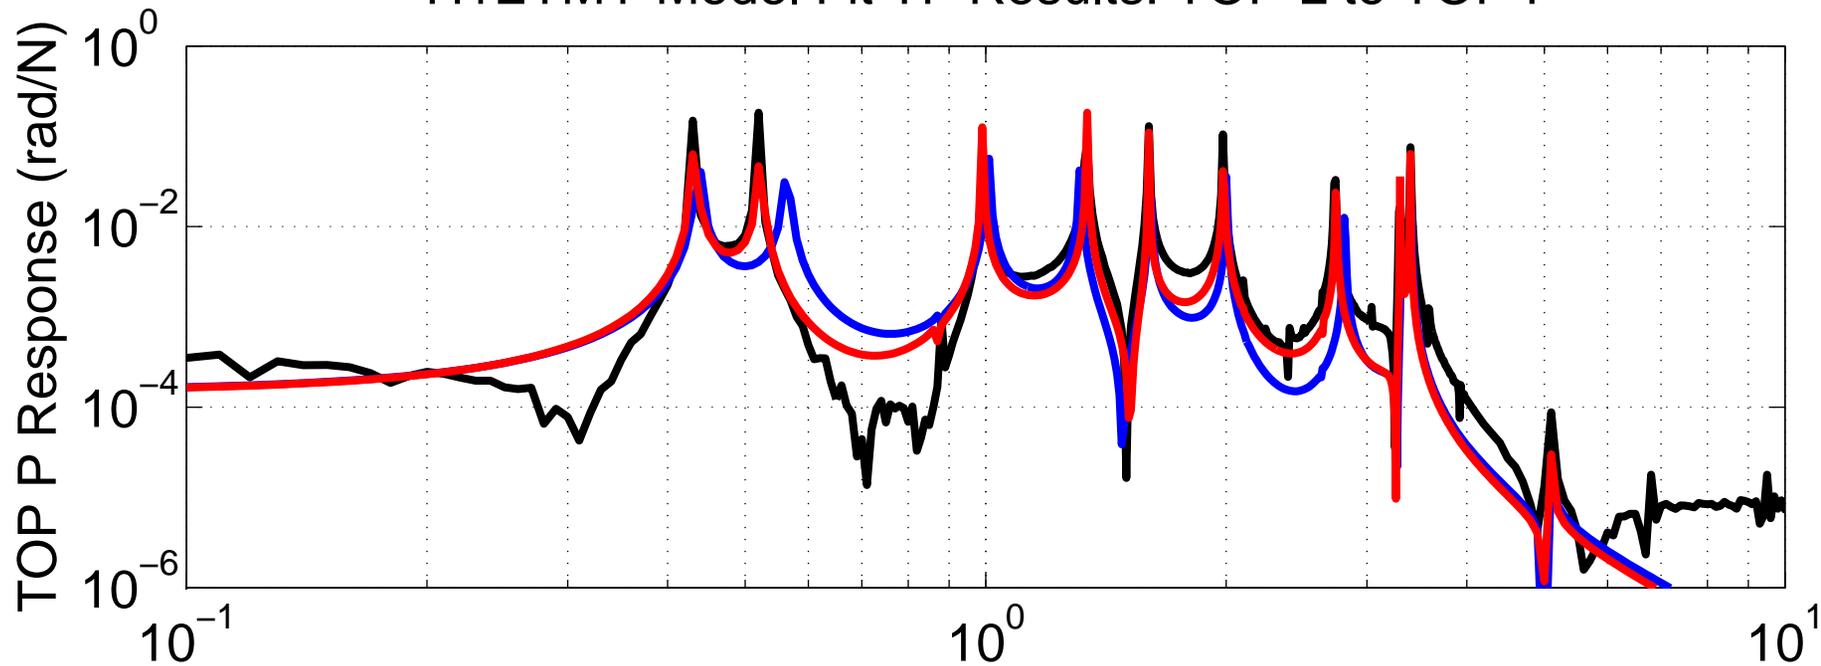

H1ETMY Model Fit TF Results: TOP P to TOP P

H1ETMY Model Fit TF Results: TOP R to TOP R

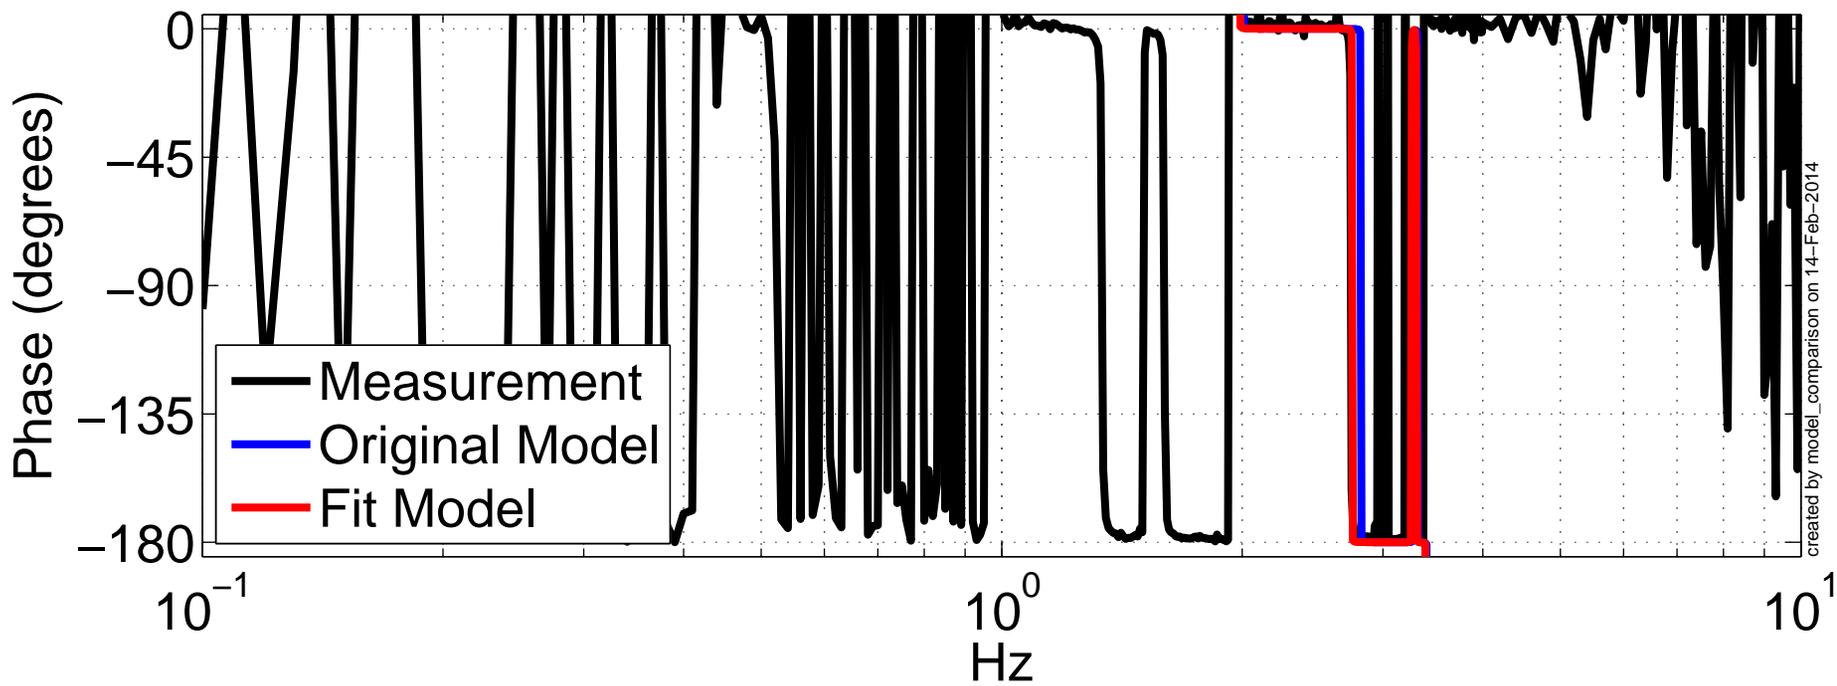

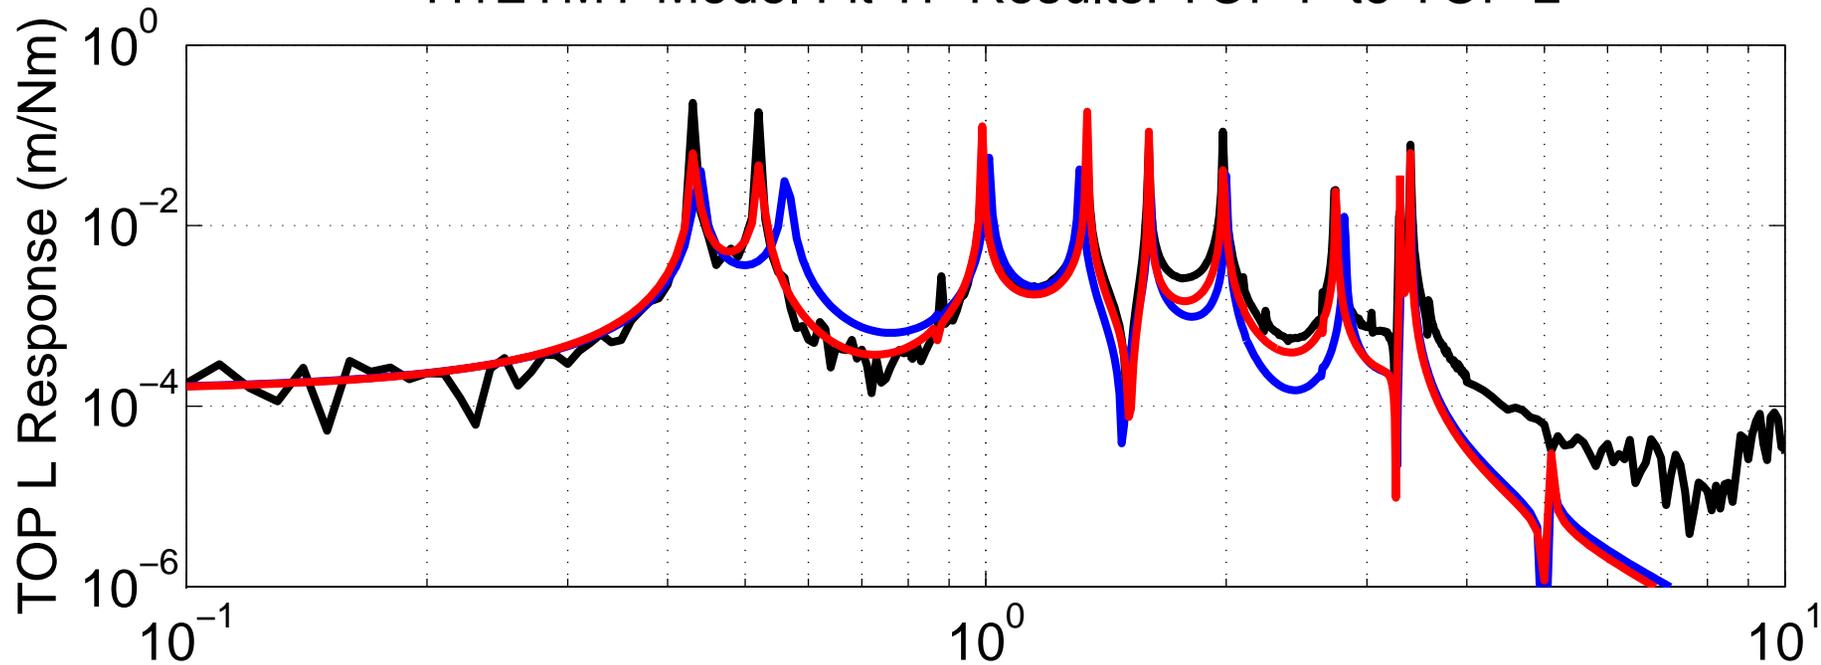

H1ETMY Model Fit TF Results: TOP L to TOP P

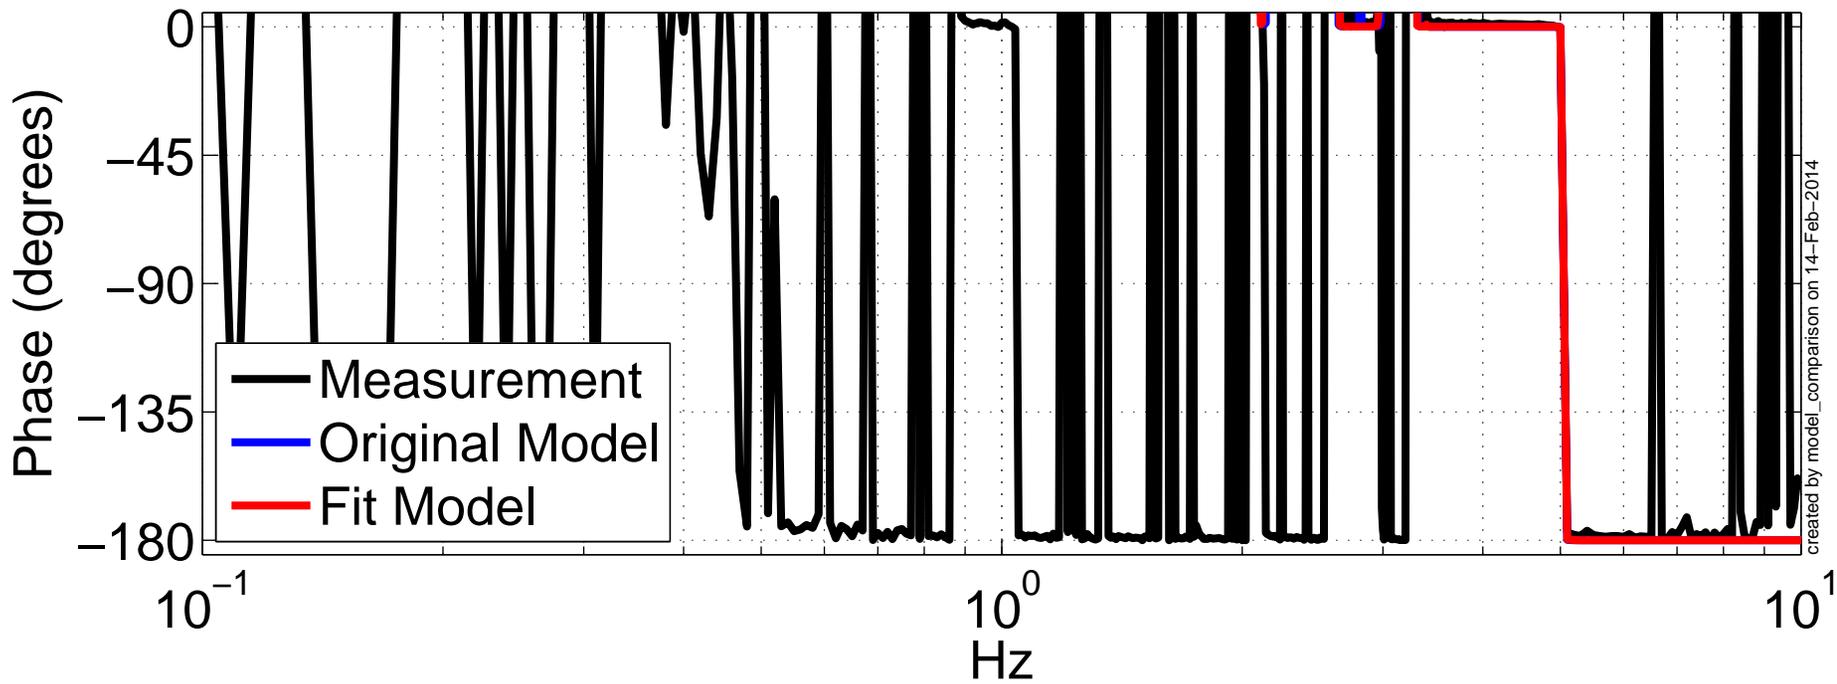

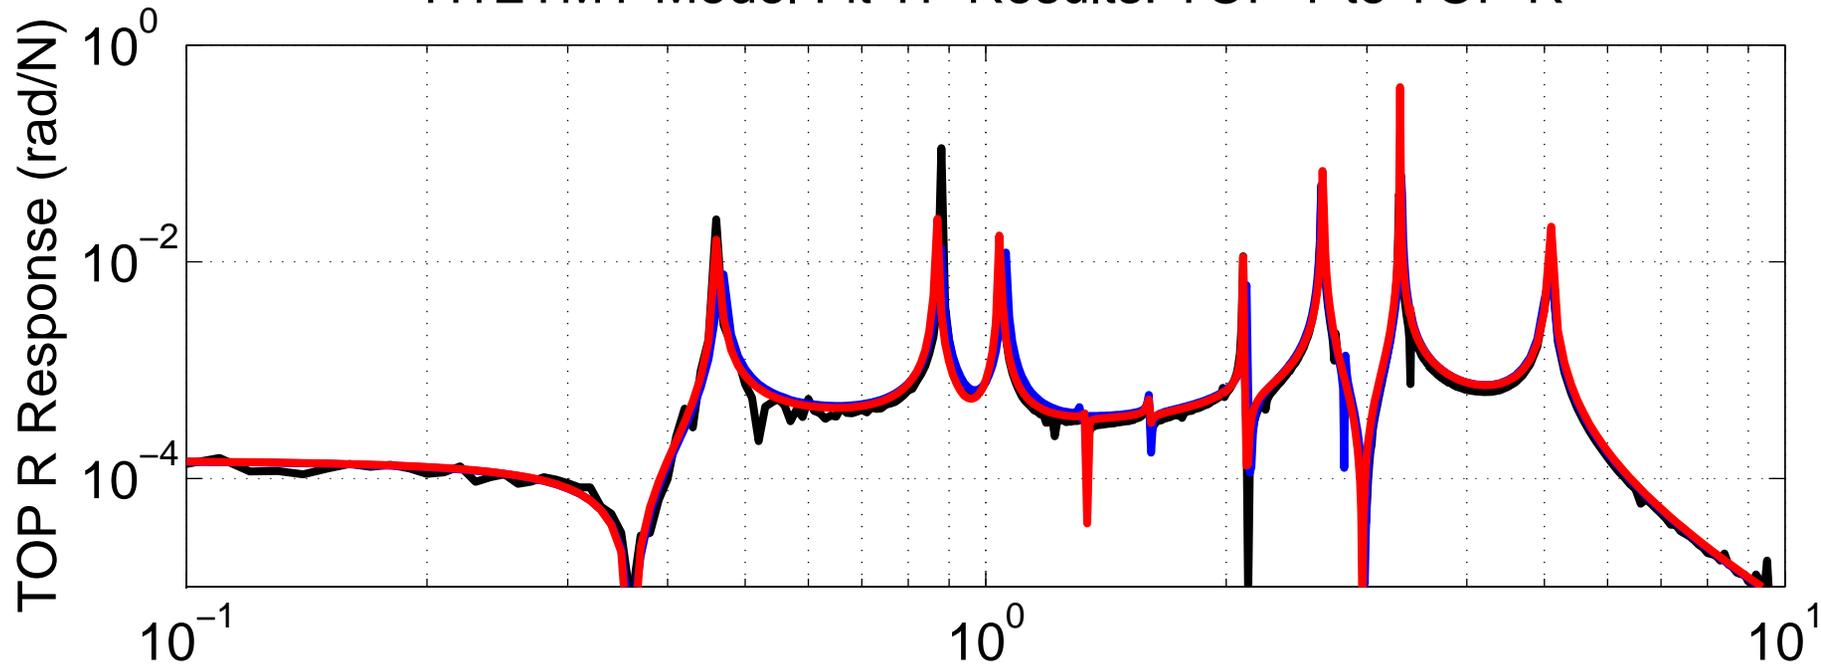

created by model_comparison on 14-Feb-2014

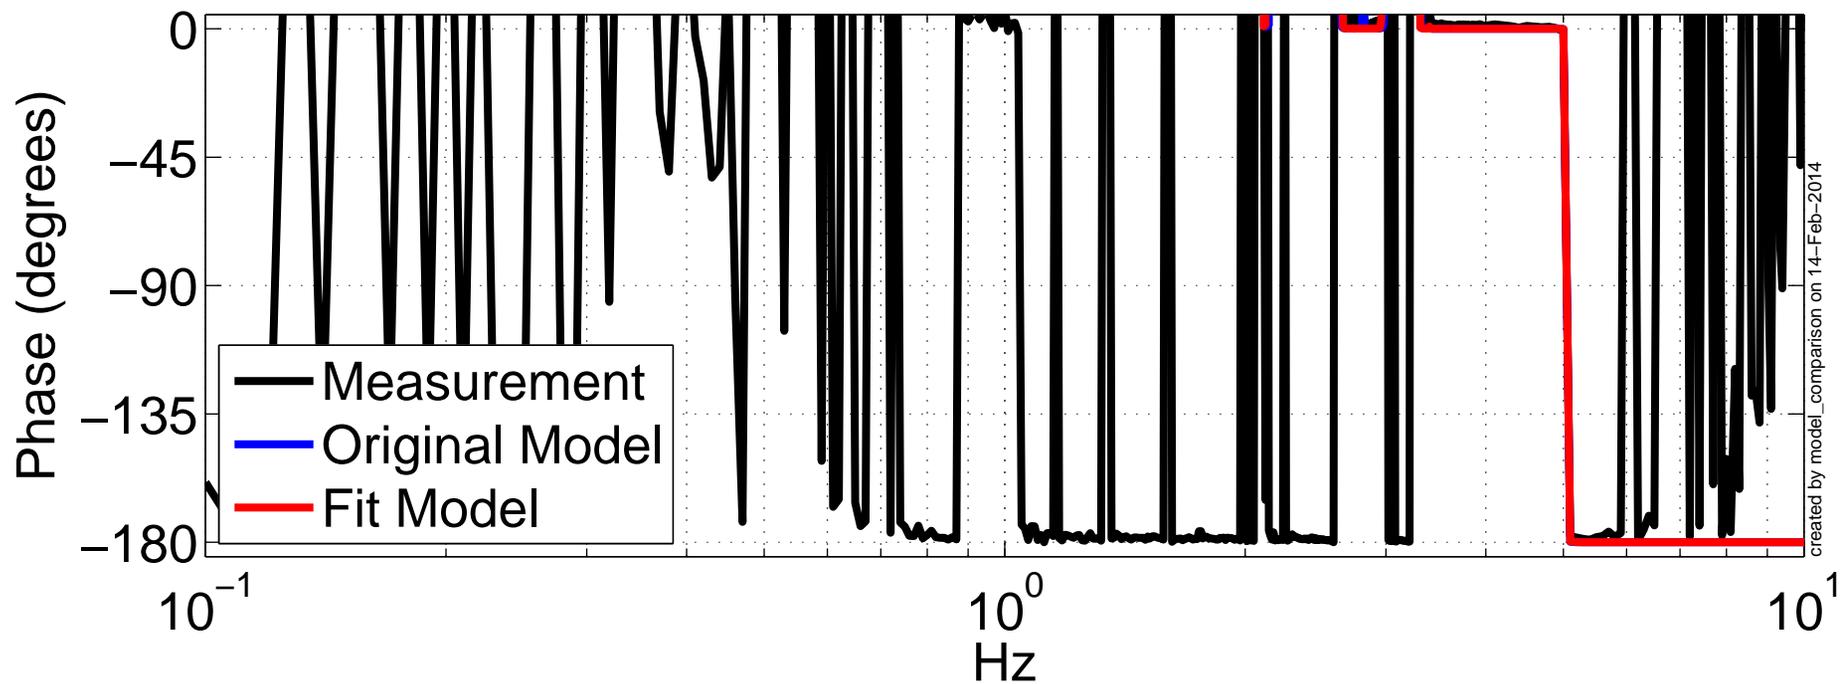

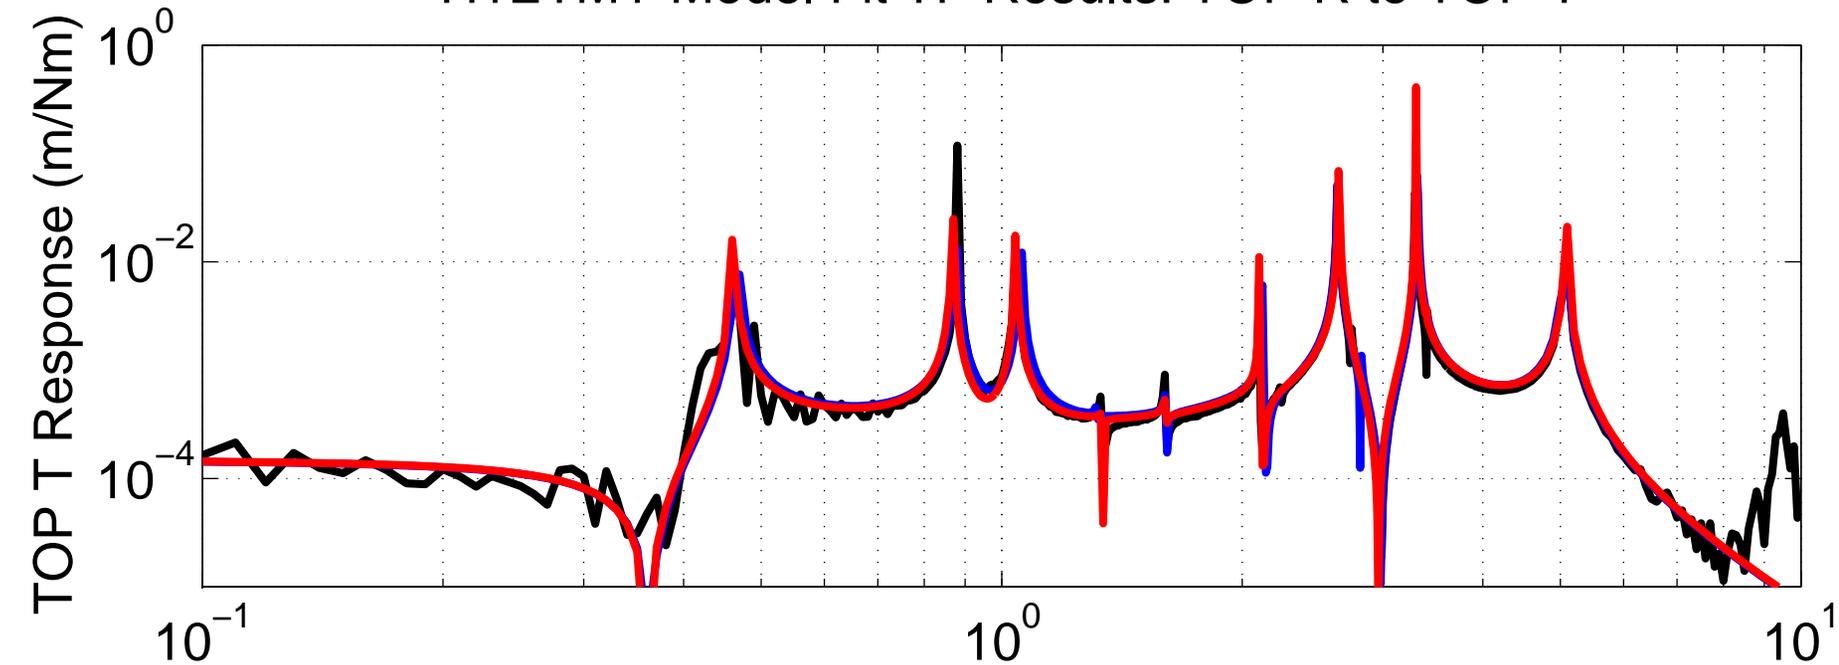

H1ETMY Model Fit TF Results: TOP P to TOP L

H1ETMY Model Fit TF Results: TOP T to TOP R

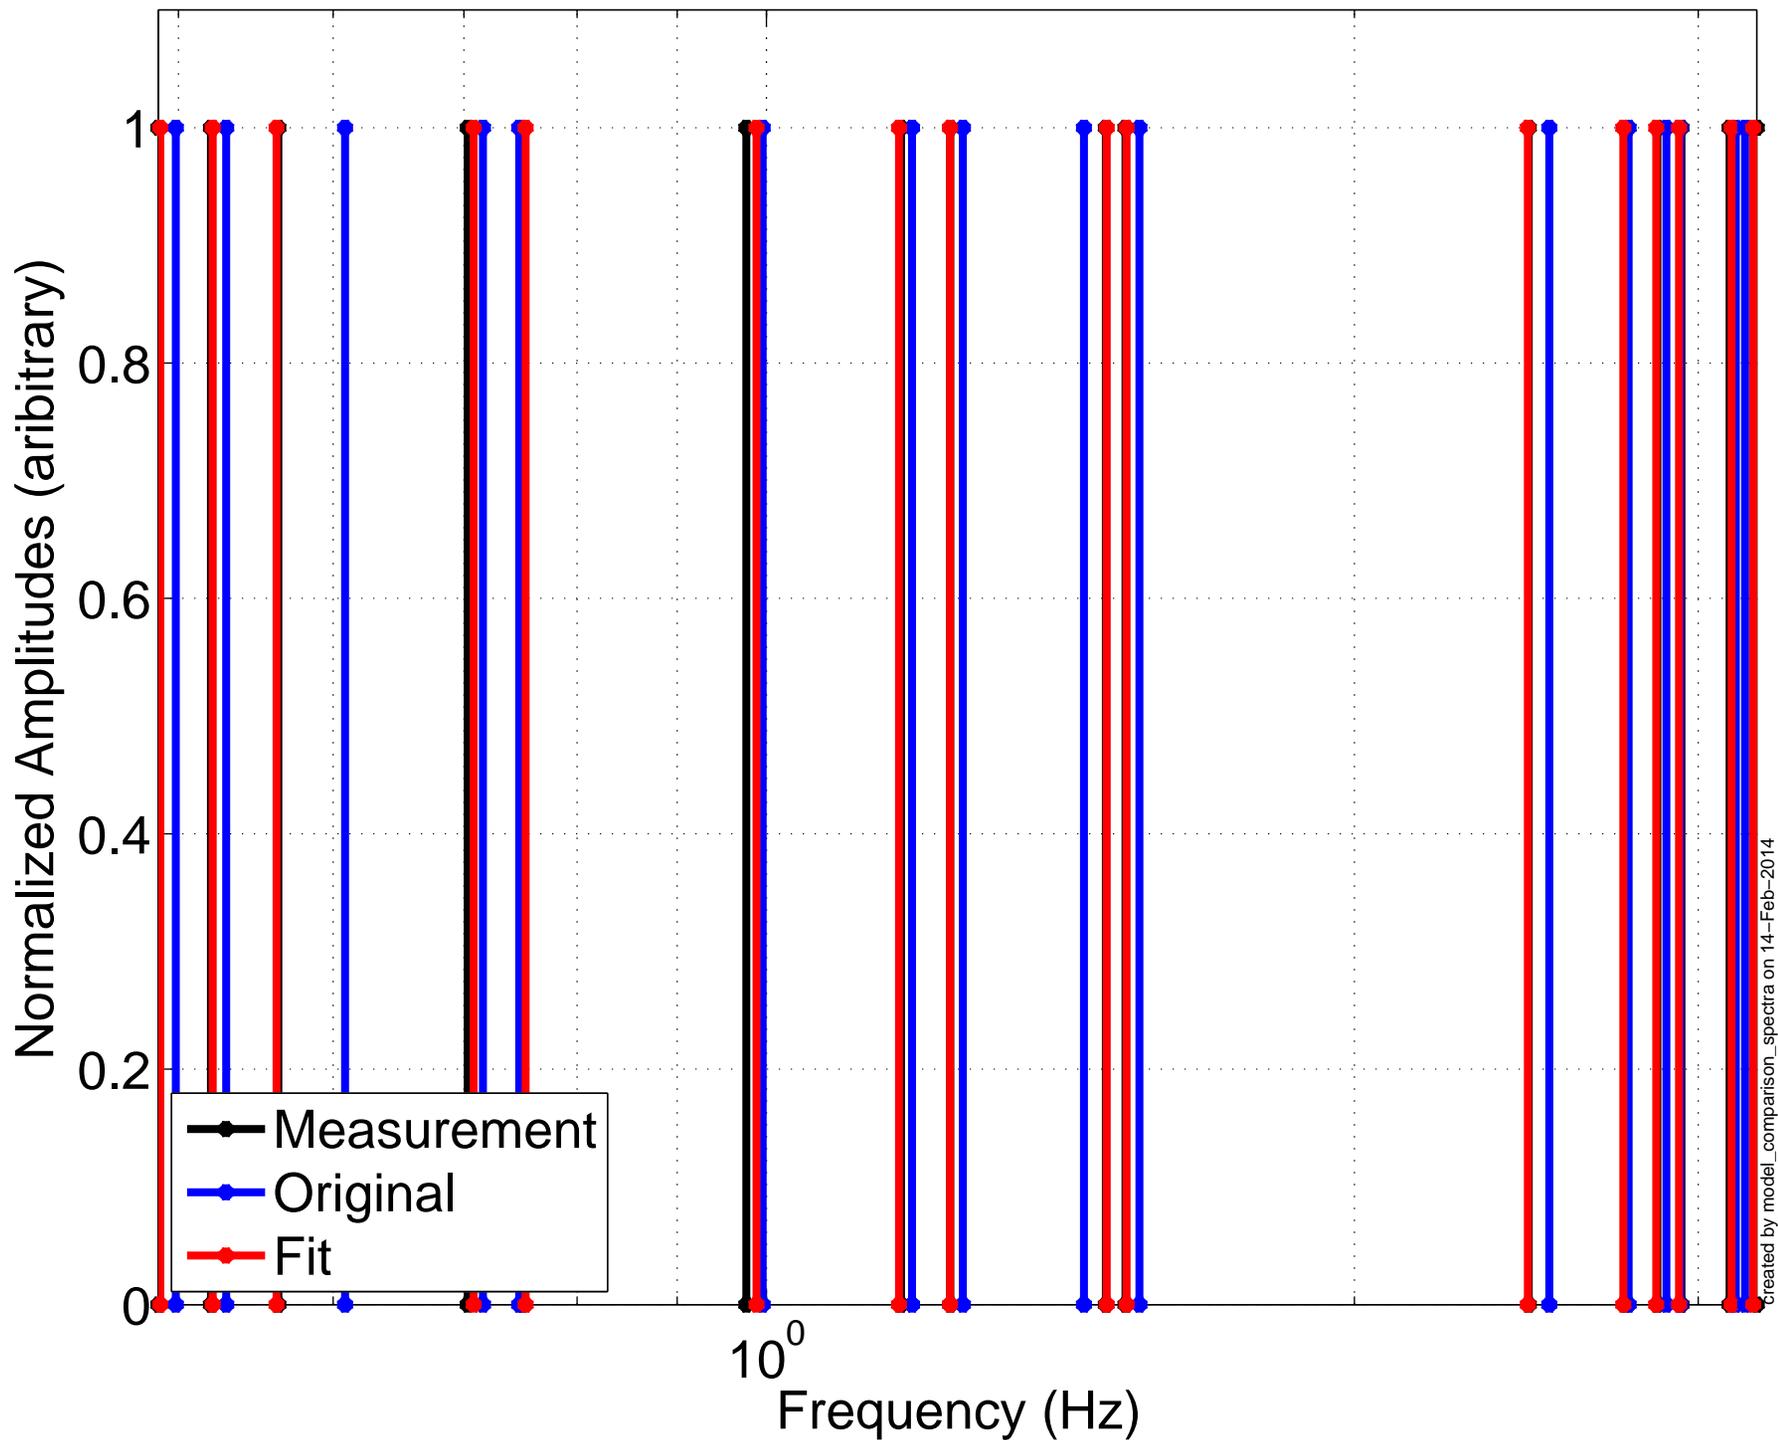

H1ETMY Model Fit TF Results: TOP R to TOP T

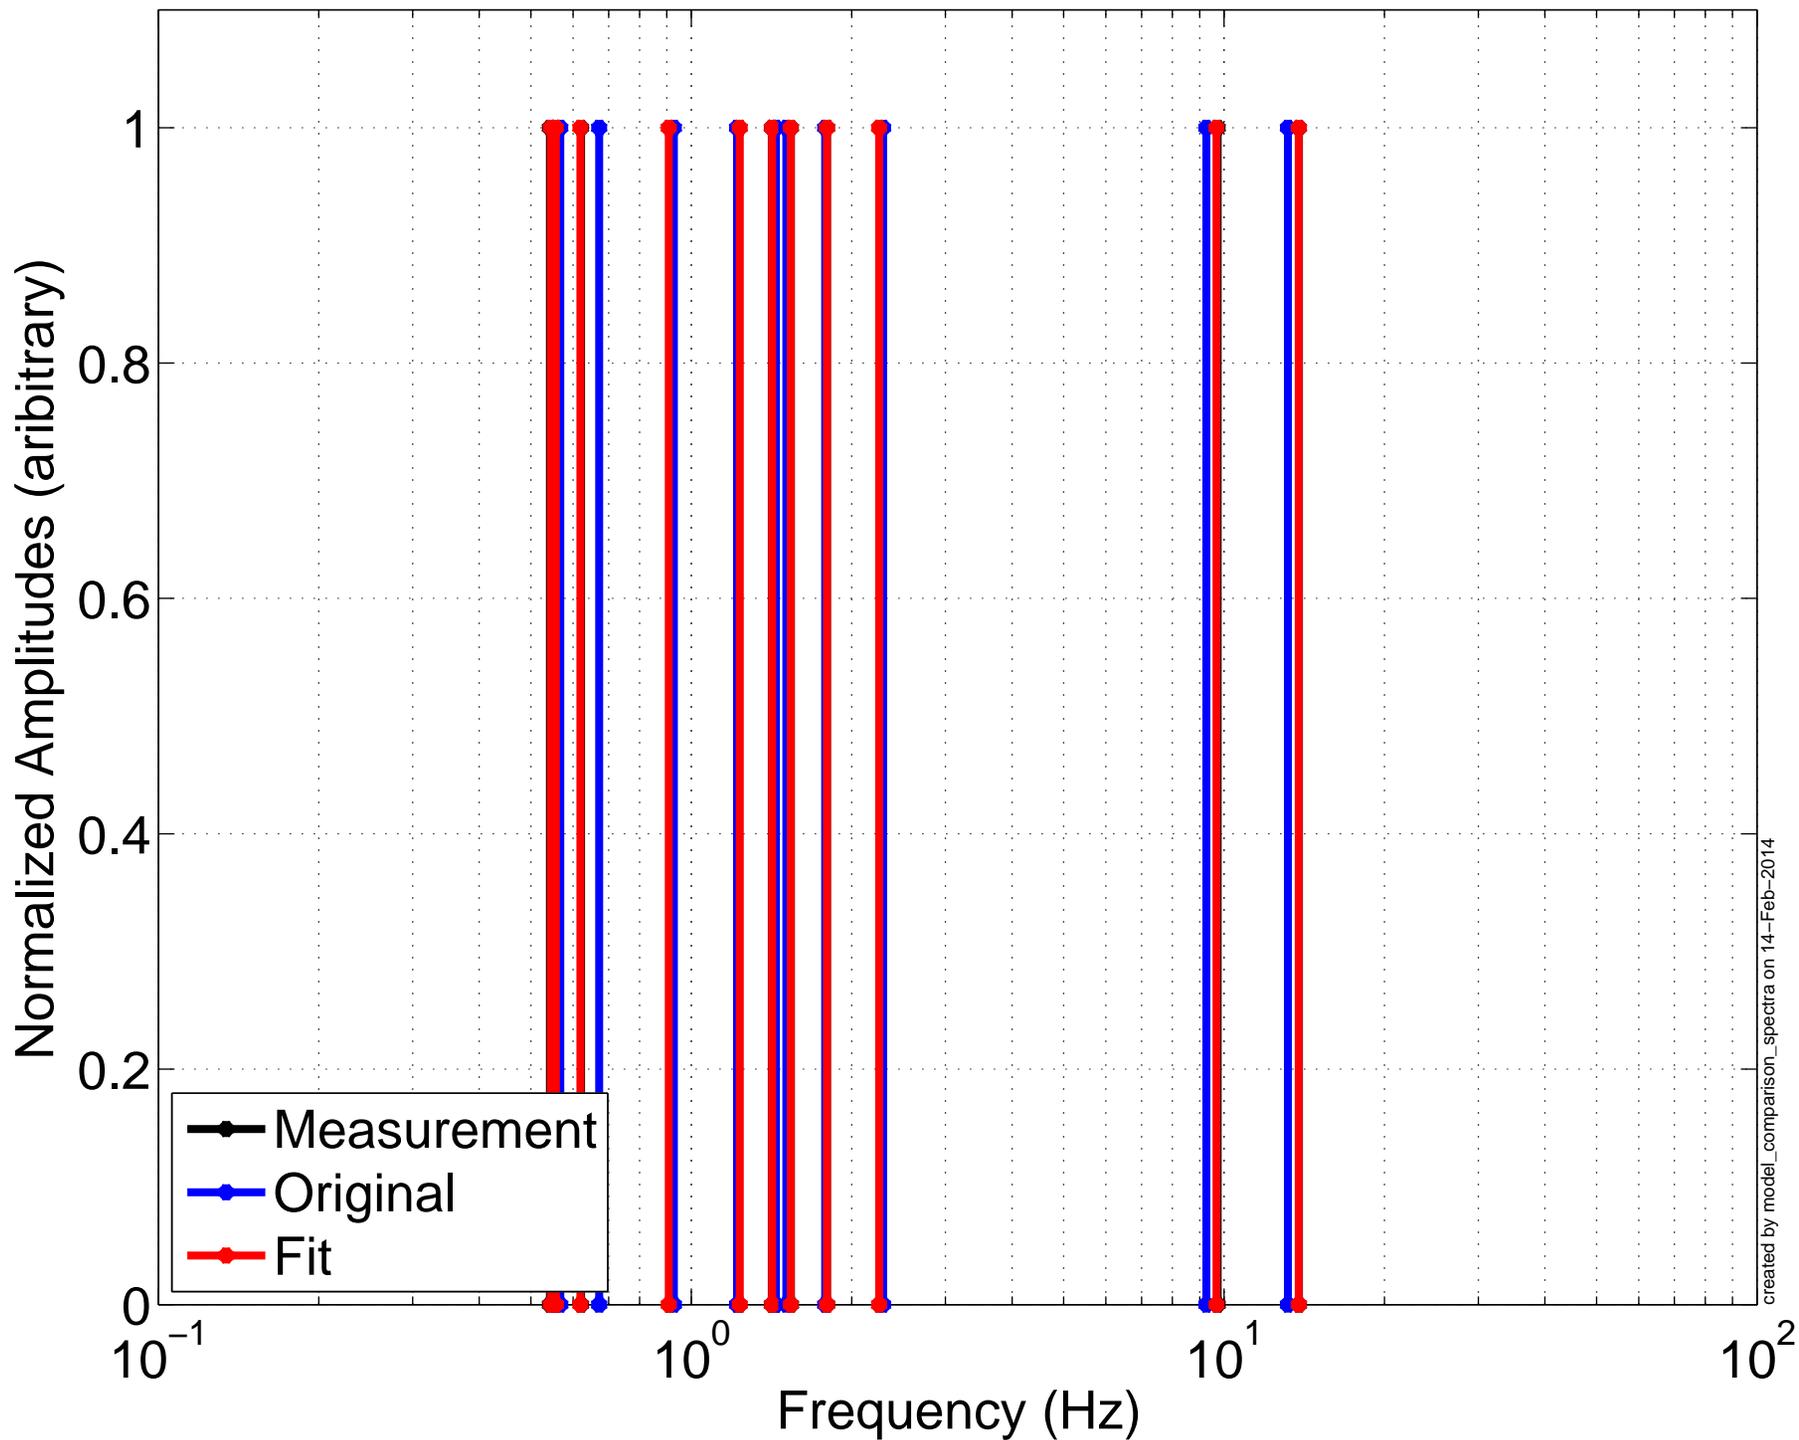

created by model_comparison on 14-Feb-2014

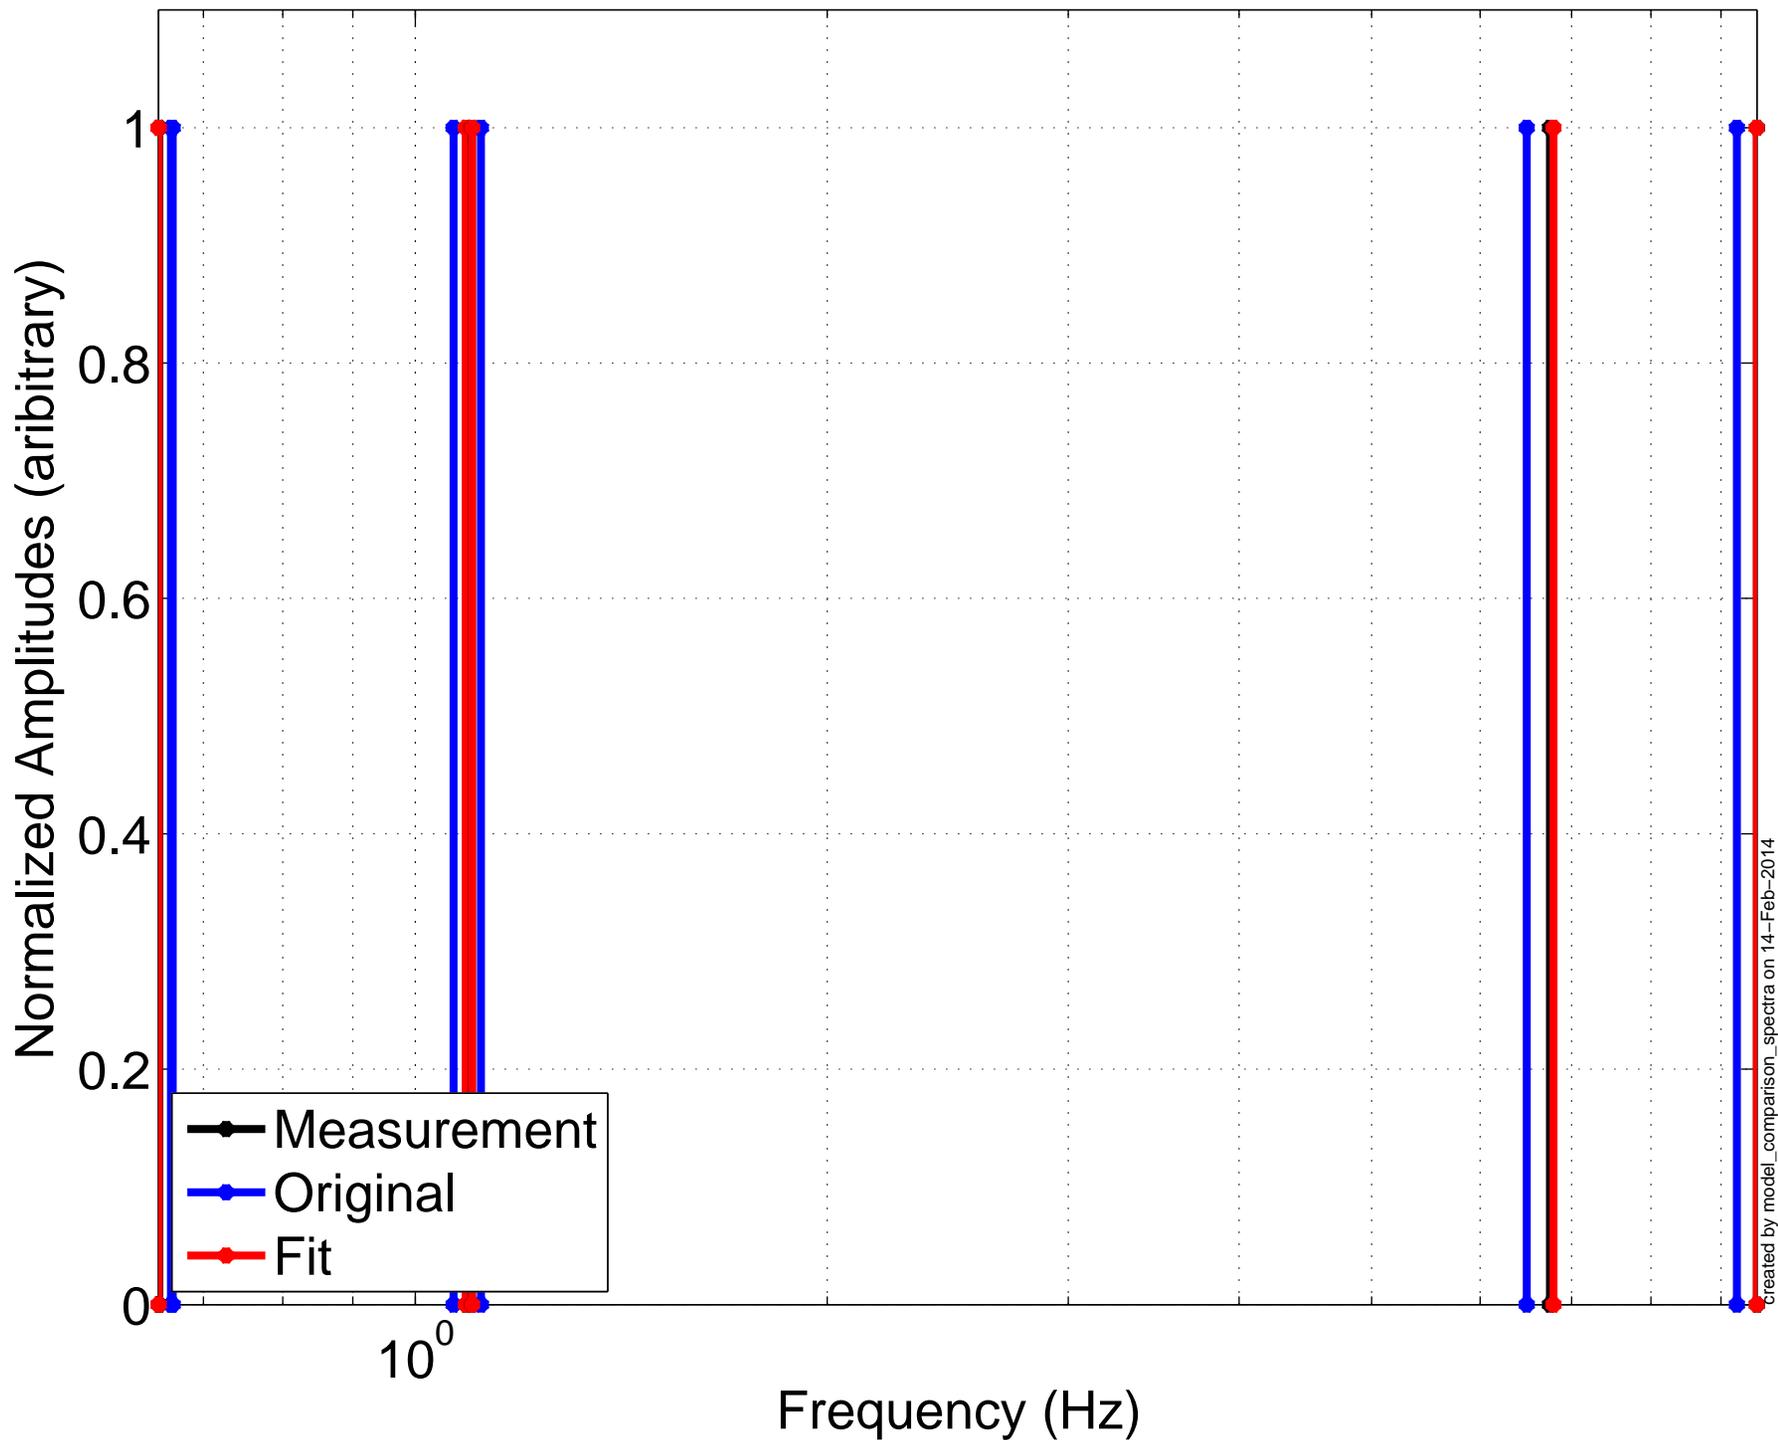

H1ETMY triple hang mode frequencies

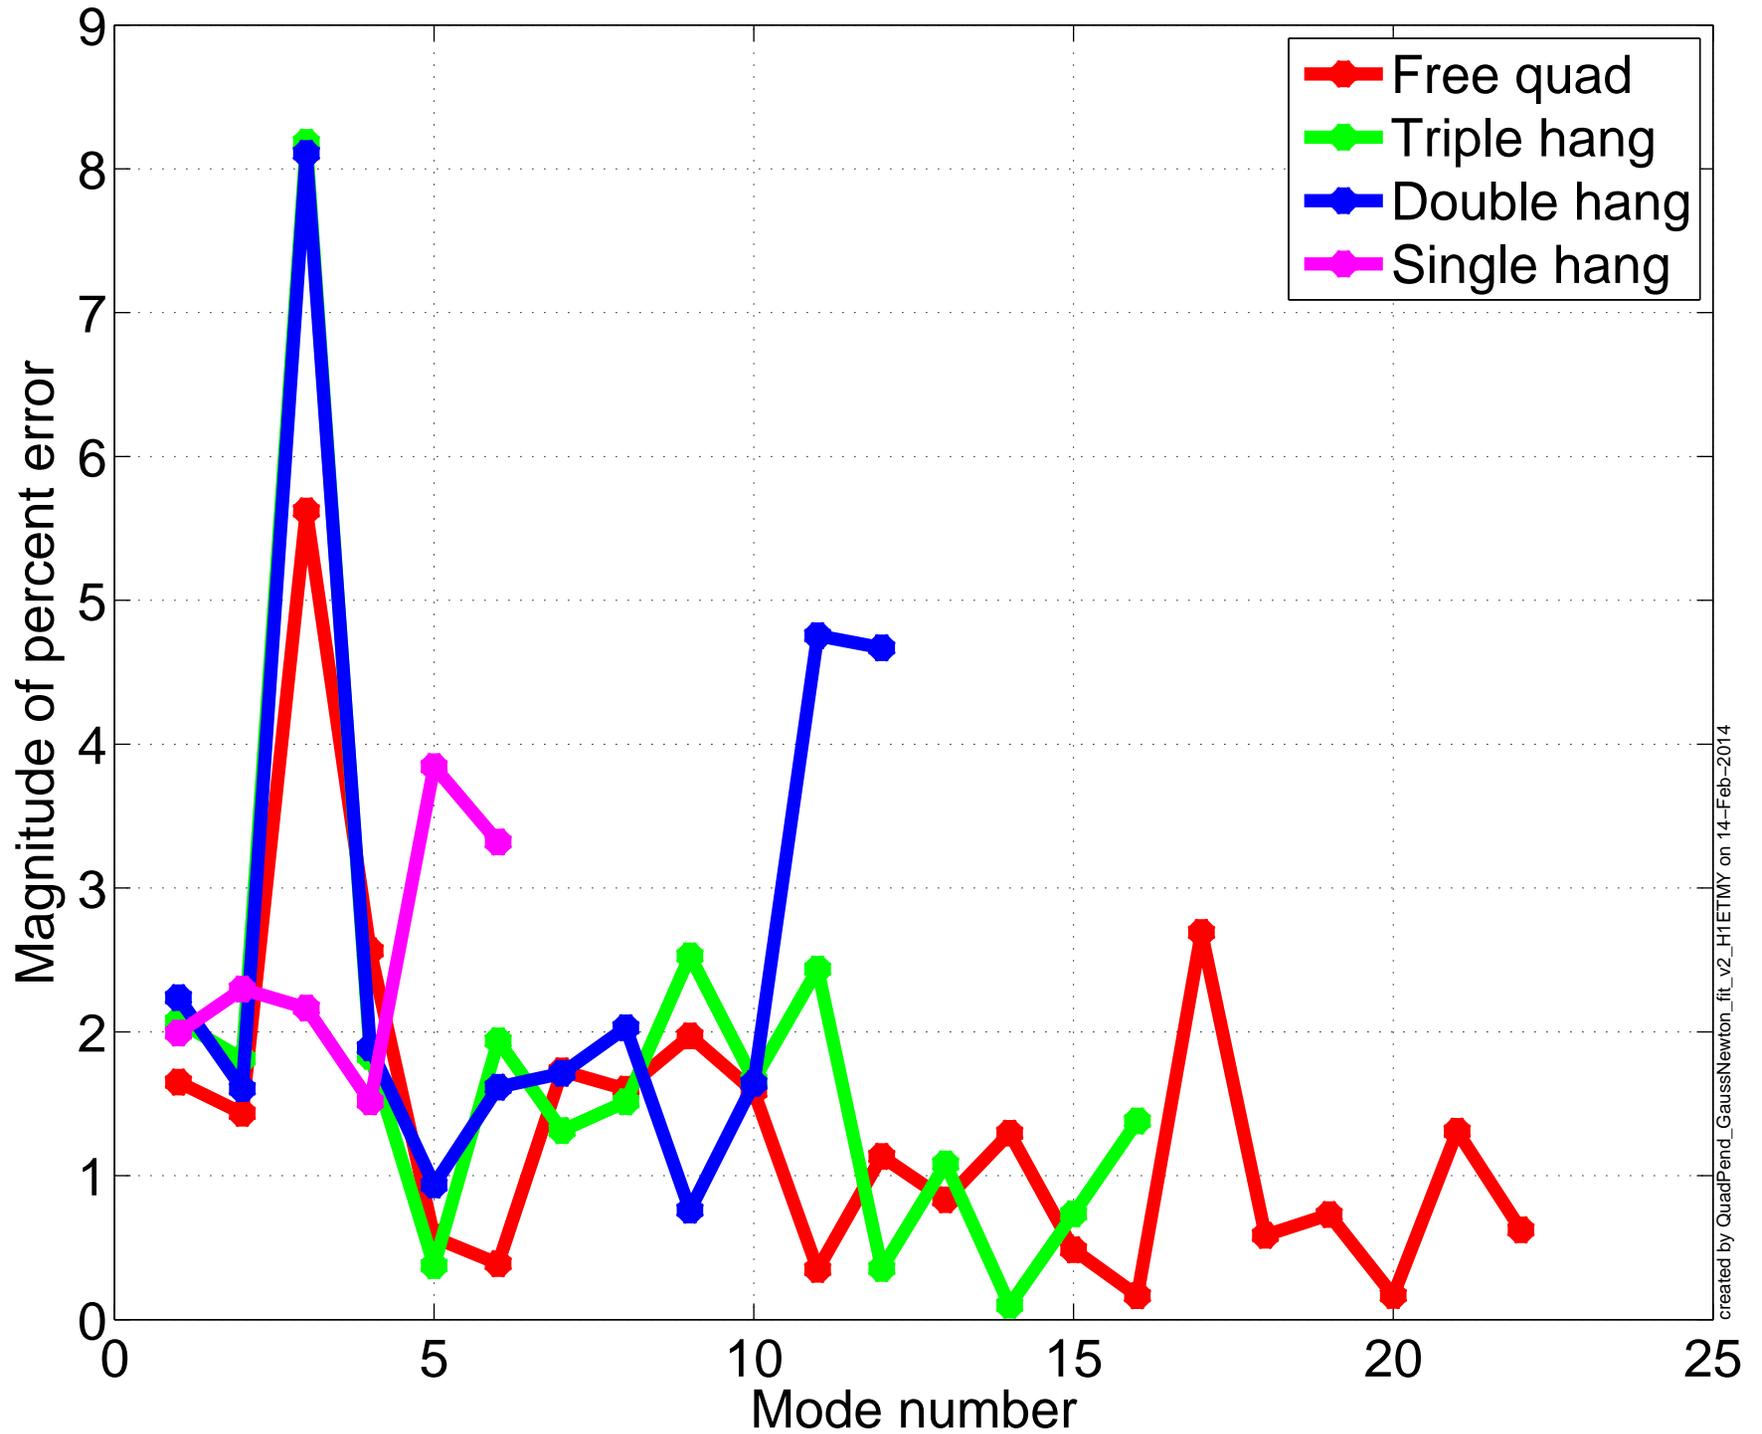

H1ETMY double hang mode frequencies

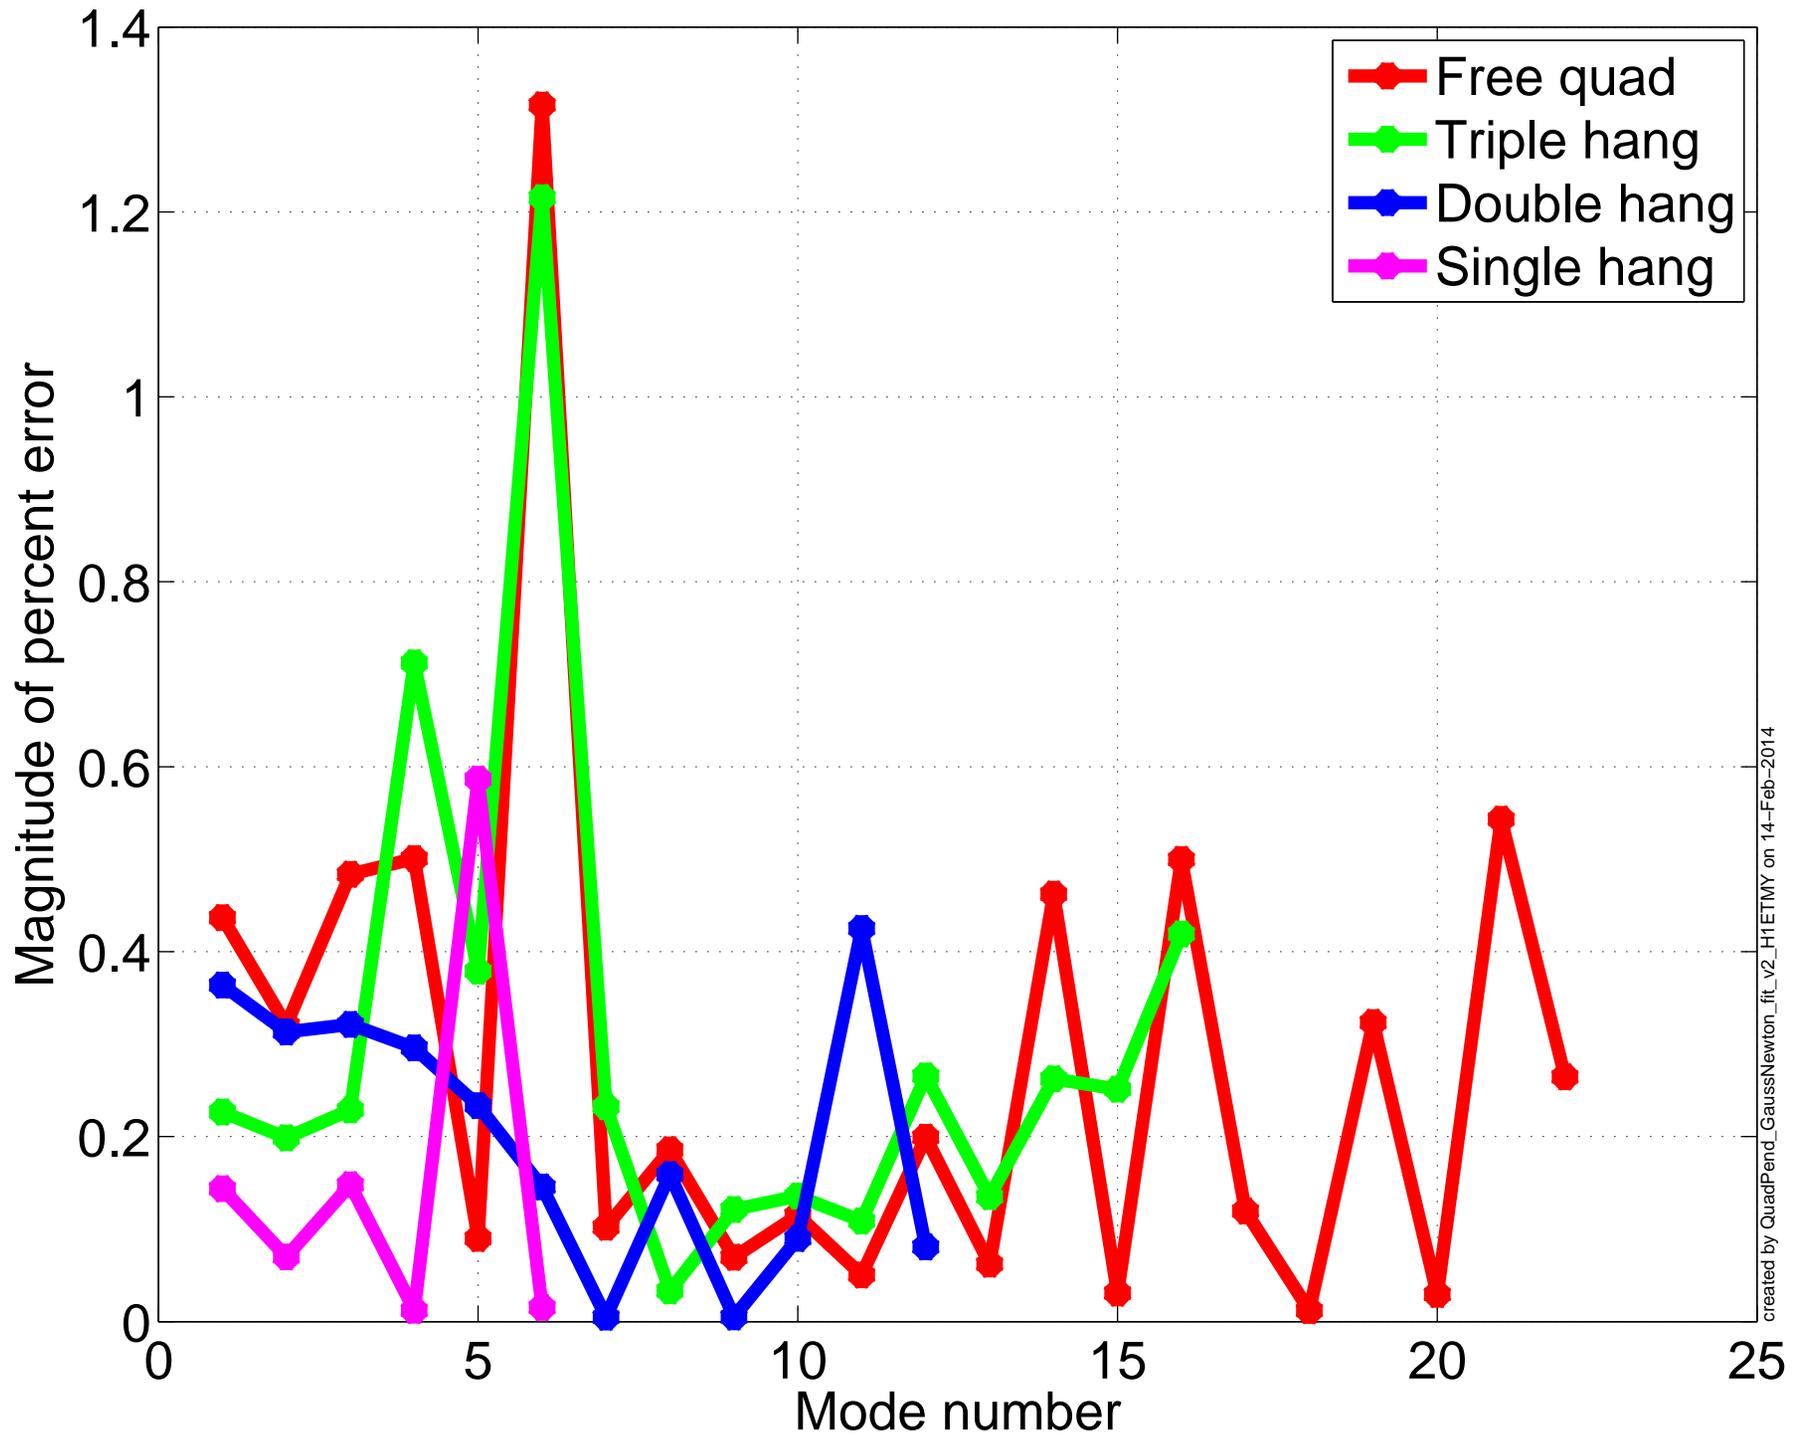

H1ETMY single hang mode frequencies

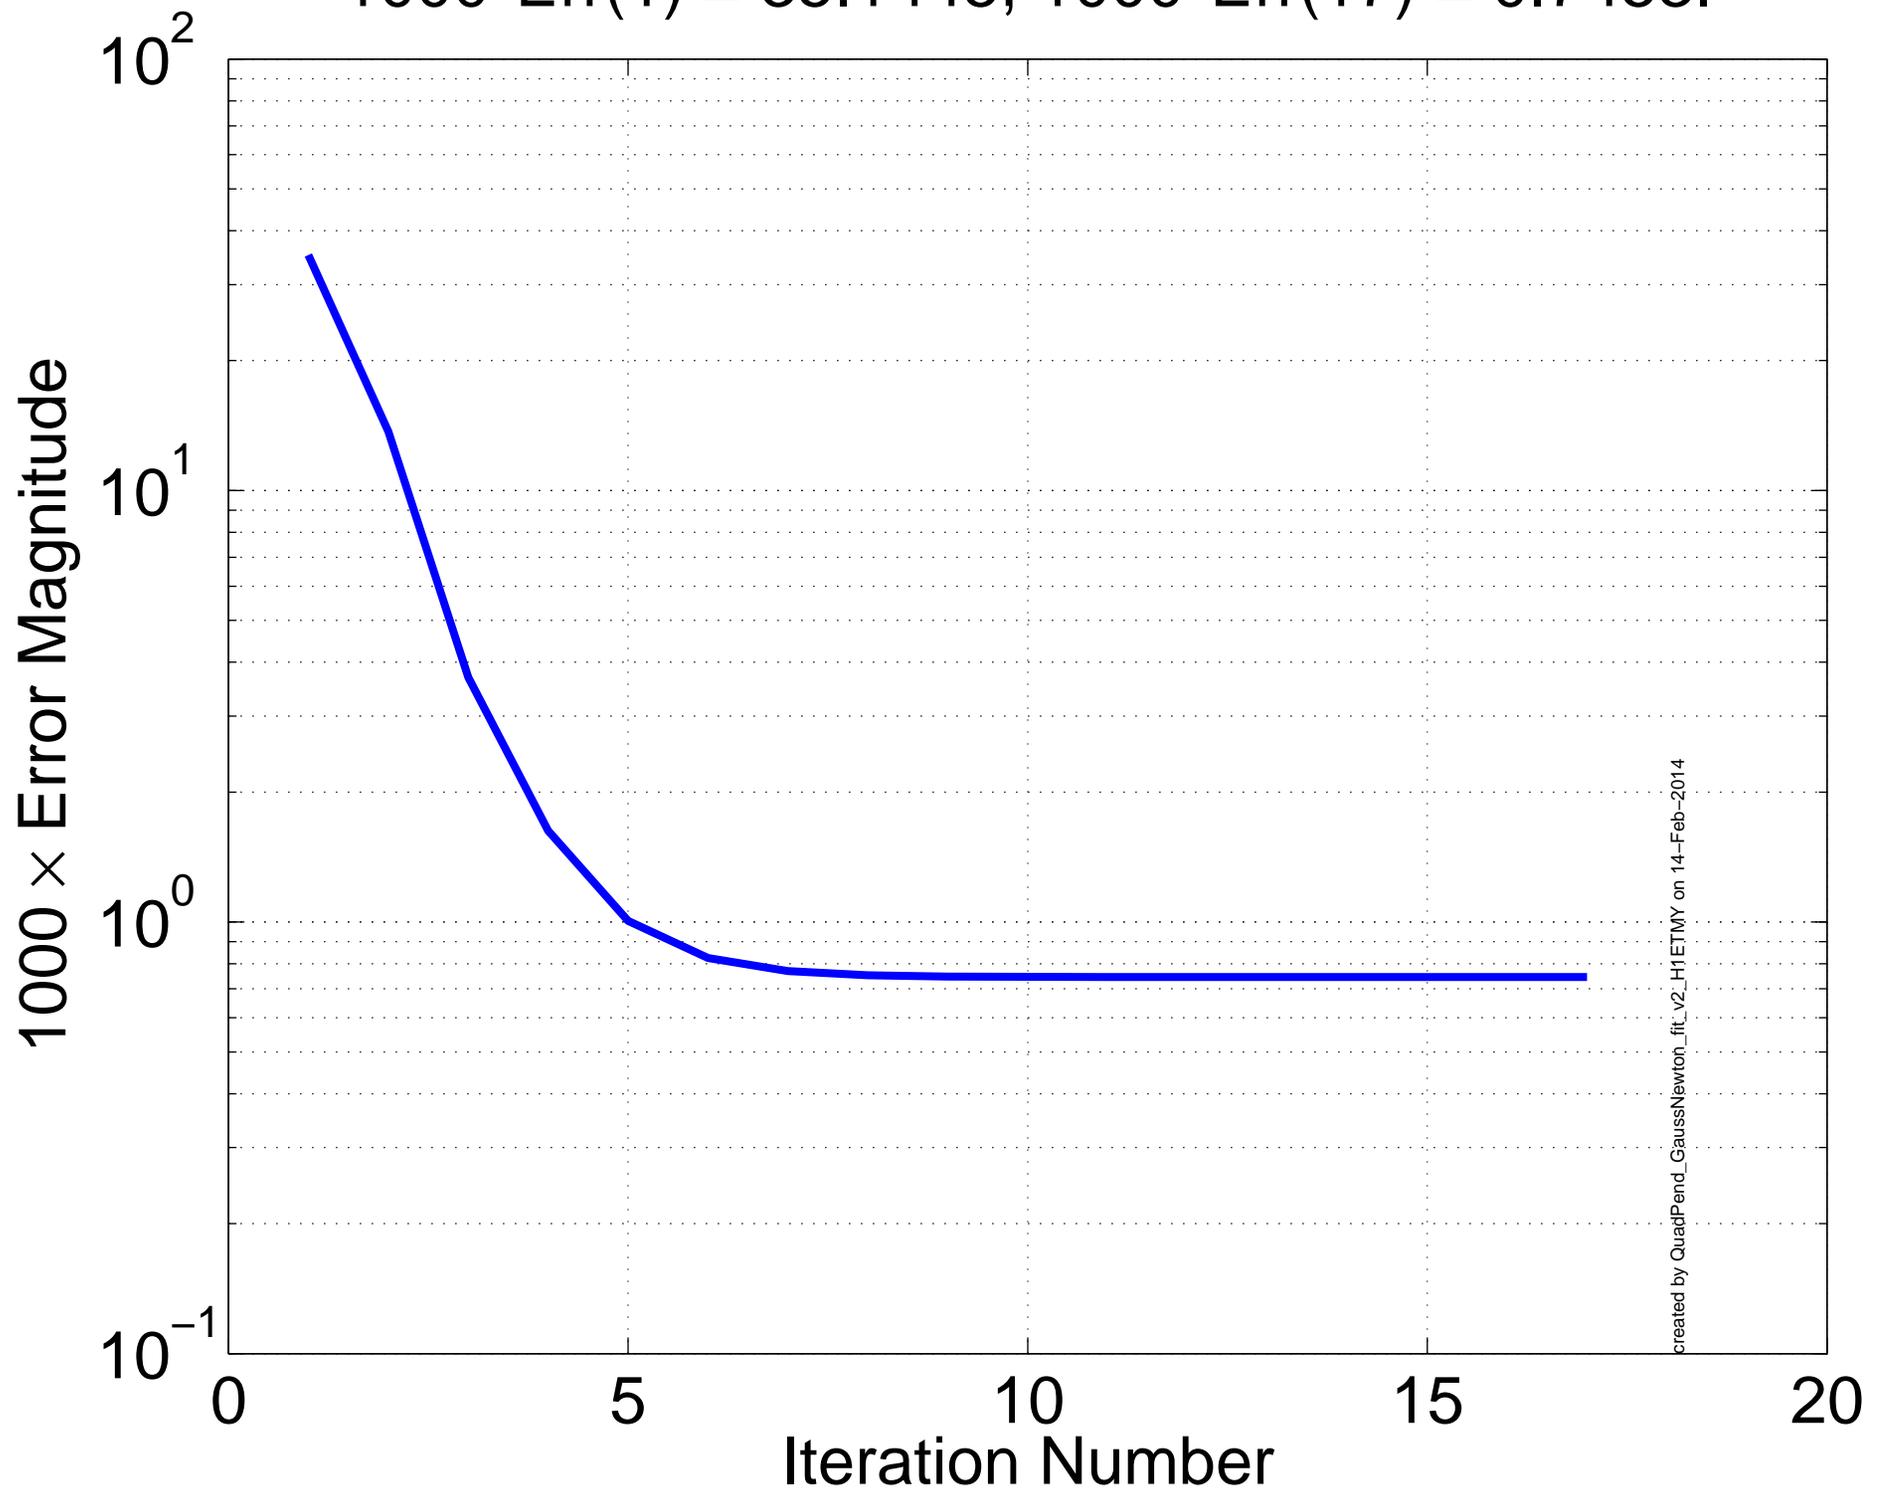

H1ETMY percent error in mode frequencies between model and measurement before fit

H1ETMY percent error in mode frequencies between model and measurement after fit

$1000 \times \text{Err}(1) = 35.1445$, $1000 \times \text{Err}(17) = 0.7453$.
